

# On-demand Finishing Solution of Post Print

BeCreative, BeTheBest.

MODEL /  
LST03-0806-RM

## **Original Design 1st of the World**

Integrated with cutting tool, creasing wheel tool, plotting pen and CCD registration system, JWEI LST03 series digitally cut labels of any shape, folding cartons of any structure directly from your original designs.

## **No cutting dies**

Just send your designed files exported from Adobe Illustrator or CorelDRAW in the form of DXF, PLT, XML or CF2 to JWEI controller for processing, requiring no physical dies, saving cost and time for making dies. Kick the finishing jobs off by simply clicking the "Print" button.

## **Versatile fast sheet fed production**

Designed for short-run on-demand production, LST03 series are highly automated by QR code recognition function for auto retrieving cutting file. Only 15-70 seconds to finish a A3-B2 sheet (depends on complexity of shapes).

## Applications

## Parameters

JWEI reserve the rights of final explanation, no further information for any exchanging.

Type	LST03-0806-RM
Auto feeder	
Auto sheet capacity	<100mm
Feeding system	Vacuum feed with clamps mounted on gantry
Max. sheet size	800MMX600MM
Min. sheet size	210MMX297MM
Cutting control	Cut through knife, kiss cut knife, creasing wheel, camera
Mountable tools	Exchangeable motor-driven Z axis tools
Cutting system	
Productivity	15 secs – 45 seconds per SRA3 sheet (average 24 seconds – depending upon complexity) 70 sec/B2 sheet (varies depends on complexity of material)
Max. cutting speed	1200mm/s
Cut thickness	≤1.5mm
Repeat accuracy	± 0.1mm
Software and connection	
File form	PLT、DXF、XML、CF2
Interface	Ethernet Port
Connection	LAN
Green Credentials	
Voltage	220V ± 10%/50HZ
Power	4KW
Weight	380KG
Size	3200mmx1100mmx1100mm
