JWEI®

On-demand Finishing Solution of Post Print

Be Creative, Be The Best.

MODEL /
LST-0604-RM

Original Design   1st of the World

Integrated with cutting tool, creasing wheel tool, plotting pen and CCD registration system, JWEI LST series digitally cut labels of any shape, folding cartons of any structure directly from your original designs.

No cutting dies

Just send your designed files exported from Adobe Illustrator or CorelDRAW in the form of DXF, PLT, XML or CF2 to JWEI controller for processing, requiring no physical dies, saving cost and time for making dies. Kick the finishing jobs off by simply clicking the "Print" button.

Versatile fast sheet fed production

Designed for short-run on-demand production, LST series are highly automated by QR code recognition function for auto retrieving cutting file. Only 15-45 seconds to finish a SRA3 sheet (depends on complexity of shapes).

Applications

Parameters

Type	LST-0604-RM
Auto feeder	
Auto sheet capacity	<100mm
Feeding system	Vacuum feed with clamps mounted on gantry
Max. sheet size	600MMX400MM
Min. sheet size	210MMX297MM
Cutting control	Cut through knife, kiss cut knife, creasing wheel, camera
Mountable tools	Exchangeable motor−driven Z axis tools
Features	Optional roll material cutting capacity
Cutting system	
Productivity	15 secs − 45 seconds per SRA3 sheet (average 30 seconds − depending upon complexity)
Max. cutting speed	1200mm/s
Cut thickness	≤1.5mm
Repeat accuracy	±0.1mm
Software and connection	
File form	PLT、DXF、XML
Interface	Ethernet Port
Connection	LAN
Green Credentials	
Voltage	220V±10%/50HZ
Power	4KW
Weight	280KG
Size	2250mmx800mmx1100mm
